Hey Brian,

I updated the CIP last year. We only update it every 3 years unless Stakeholder people change. I was planning on talking to you this week since I am now finished with Explo. Things we do update frequently is the fact sheet. Should we start working on one now?

Thanks

Jason

Subject: Community Involvement Plan Update for Falcon Refinery

Jason

Can you please tell me when the Community Involvement Plan for the Falcon Refinery Site will be updated? I am planning on holding an informational meeting at the site in late February or early March to update the public on the progress of the RI/FS and future agency actions (proposed plan and ROD). I am waiting to receive and review the data report for the site before setting a date for the informational meeting. Also the site team is scheduled to brief Carl Edlund on the Jan 13th about the site.

Thanks
